## PROFILE

I am a french student at an engineering school, specializing in apprenticeship in the digital field, electronics, and Computer Science. I am currently seeking a 3-month summer internship to explore opportunities with a new company.

## WORK EXPERIENCE

- Apprentice software developer engineer** 2022- PRESENT  
INDEX EDUCATION, Marseille
  - I work with a team of engineers with the aim of developing softwares for education in France.
  - We do object-oriented programming. We fix bugs or make functional improvements to the softwares.
- Logistics operations agent** Summer 2022  
AMAZON, Bouc-Bel-Air
  - Receipt and storage of goods following Amazon's internal procedures.
- Order picker** Summer 2021  
DISTRIMAG, Fos-Sur-Mer
  - Prepare orders following defined work procedures. Organize the arrangement of the prepared products on the packaging support.
- Computer programming internship** 2018  
CESI EXIA Engineering School, Aix-en-Provence
  - Introduction to computer programming in the C++ and SQL language at the CESI EXIA engineering school.
- Pharmacy internship** 2015  
Pharmacie du Moulin, Marignane
  - Develop and maintain strong relationships with partners, agencies, and vendors to support marketing initiatives.
  - Monitor and maintain brand consistency across all marketing channels and materials.
